## SKILLS

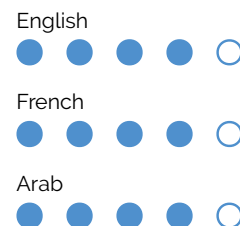

## PERSONAL PROJECTS

### ComeTrip (Alternative Airbnb) (01/2019 – 06/2019)

- the idea of ComeTrip was born of a problem that many people live when struggling financially to travel. This platform gives the opportunity to discover, list and book unique places all over Senegal. Profiles and a scoring system provide information about the host and what is on offer. Vice-versa, the hosts can choose for themselves who rent their space.
- Technologies used: VueJS / NodeJS / ElementUI / MongoDB / Git / Scrum / Jest
